Biography

NJ Tao joined the ASU faculty as a professor of electrical engineering and an affiliated professor of chemistry and biochemistry in August 2001. Before that, he worked as an assistant and associate professor at Florida International University. He has published 180 refereed journal articles and book chapters, which have been cited over 7000 times (h-index: 50). He has given over 180 invited talks and seminars worldwide.

Research Interests

- Chemical and biological sensors,
- molecular and nano electronics,
- nanostructured materials and devices,
- and electrochemical nanofabrications.
